CSAV upgrades Americas Service

Dear Customer,

We are pleased to announce the upgrade of our **Americas Service** by adding direct calls to Buenaventura and Balboa while call to Guayaquil will be omitted. This modification will enable us to meet growing demand from West Coast of South America to East Coast of North America and Caribbean with a direct service.

Americas Service will maintain weekly frequency according to following rotation:

San Antonio, San Vicente, Callao, Buenaventura, Balboa, Cartagena, Port Everglades, Port Elizabeth.

Port Elizabeth, Baltimore, Charleston, Port Everglades, Cartagena, Manzanillo (MIT), Guayaquil, Callao, San Antonio.

First vessel calling Buenaventura and Balboa will be **MV CSAV Itajai 106 NB** eta **San Antonio on October 24th** and **Buenaventura on November 4th**.

This new configuration will increase synergies with other CSAV services, allowing cargo movement from Buenaventura to different destination via transshipment in Cartagena.

For further information please contact your local CSAV Agency representative.
