

## CSAV successfully concludes first stage of capital increase

In this first stage of the process, 85% of the new issue was subscribed and paid, producing a sum of US\$ 430 million.

The great shareholders interest in the first round in subscribing for the remaining shares of this issue confirms that the US\$ 500 million of the issue will be fully subscribed. This is a strong demonstration of the shareholders significant support and trust in the future of the company.

Sincerely,

CSAV Group
