Pre-advise for cargoes bound for Turkey or transshipped in Turkish ports

Dear Customer,

CSAV Group would like to inform our valued customers that the **“Turkish Customs Decree No. 4458, The Turkish Customs Administrative Measures on Manifest of Transport Vehicles In and Out of Territory”** had ruled that information on all containerized cargoes destined to or transshipped via Turkish ports, shall be submitted to the Turkish Customs **24 hours before loading**.

The **Advanced Manifest Rule** will enter into force on January 1st, 2012. The authorities will not consider a transitional nor a grace period, passing directly into a “practical phase” applicable to all vessels whose voyages begin on the 1st of January, 2012 or later.

Basically this regulation provides that the ocean carrier will be responsible for timely submission of the Entry Summary Declaration (ENS), based on the information supplied by our customers within the following timings:

Type of cargo and destination		Deadline to inform the Customs'
1	Containerized cargoes destined to Turkish ports in direct calls	48 hrs before ETA at port of loading
2	Containerized cargoes transhipped via a Turkish port to a foreign port	48 hrs before vessel ETA to the First Port of Entry in Turkey
3	Containerized cargoes transhipped via a Turkish port to another Turkish port	
4	Containerized cargoes loaded in the Black or Mediterranean Seas areas	4 hrs before vessel ETA to the First Port of Entry in Turkey
5	Empty containers destined to Turkey	Shall follow the same rules applicable to full containers (see above)
6	Empty containers transhipped via a Turkish port
